

FY 2014 ANNUAL PLAN

MID-TERM PLAN (THE 2ND TERM)		FY 2013 ANNUAL PLAN		FY 2014 ANNUAL PLAN	
	I Measures to be Taken to Achieve Goals regarding Improvement of the Quality of Education/Research Conducted at the University		I Measures to be Taken to Achieve Goals regarding Improvement of the Quality of Education/Research Conducted at the University		I Measures to be Taken to Achieve Goals regarding Improvement of the Quality of Education/Research Conducted at the University
Item	1. Measures for Achievement of Goals regarding Education	Item	1. Measures for Achievement of Goals regarding Education	Item	1. Measures for Achievement of Goals regarding Education
	(1) Measures for achievement of goals regarding admission and entrance examination systems		(1) Measures for achievement of goals regarding admission and entrance examination systems		(1) Measures for achievement of goals regarding admission and entrance examination systems
(ア)	The University of Aizu The Undergraduate Program	(ア)	The University of Aizu The Undergraduate Program	(ア)	The University of Aizu The Undergraduate Program
a	For recruitment of students meeting the University's Admission Policy, review and improve the admission methods on a continuing basis.	a	The Admission Center will analyze, evaluate and deliberate on results of previous year's entrance examination and questionnaire to the applicants, etc. Based on the analysis and evaluation, discuss the selection methods and revise them as necessary.	a	The Admission Center will investigate, analyze and evaluate results of previous year's entrance examination, other universities' admission systems and questionnaires to the applicants, etc. Based on those investigation, analysis and evaluation, discuss the selection methods and revise them as necessary.
b	In order to attract more prospective students to the University, promote effective and systematic PR activities under the initiative of "Admission Center" of the University, through diverse approaches, including timely updates of relevant web pages, proactive attendance at university fairs, off-campus lectures by our faculty for high school students, and UoA Open Campus, etc.	b	Aim to increase the number of applicants to the Undergraduate School through effective PR activities, such as; updates of web pages, utilization of the new "UoA Guide Book," proactive attendance at university fairs, off-campus lectures by our faculty to high school students, UoA Open Campus, and visits to high schools inside/outside Fukushima, etc.	b	Aim to increase the number of applicants to the Undergraduate School through effective PR activities, such as; updates of web pages, utilization of the "UoA Guide Book," proactive attendance at university fairs, off-campus lectures by our faculty to high school students, UoA Open Campus, and visits to high schools inside/outside Fukushima, etc.
(イ)	The Graduate School (Master's Program)	(イ)	The Graduate School (Master's Program)	(イ)	The Graduate School (Master's Program)
a	Recruit excellent international students, including those from academic exchange partner universities and those supported by government's scholarship.	a	Recruit excellent international students, making use of the national government's scholarship programs and the UoA Dual Degree Program.	a	Recruit excellent international students by making use of the national government's scholarship programs and the UoA Dual Degree Program, and promoting collaboration with academic exchange partner universities.
b	In order to increase our undergraduate students' motivation to proceed to our graduate school, promote both the "Early Admission System" and the "Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs." The "Early Admission System" enables our students to complete the Undergraduate Program in three years of enrollment and proceed to the Master's Program and the "Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs" enables our students to complete the Master's Program in five years following admission to the Undergraduate School, in a well-planned and smooth manner.	b	Further promote the "Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs" (established on April 1, 2010), making use of the "Scholarship for Students in the Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs."	b	Further promote the "Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs" (established on April 1, 2010), making use of the "Scholarship for Students in the Program of the Undergraduate and Master's Programs for Five Years through Integration of the Two Programs."
イ	The Junior College	イ	The Junior College	イ	The Junior College
(ア)	In order to recruit excellent students, widely announce and publicize the admission policy while reviewing and improving PR activities such as high school visits by faculty, explanatory meetings for admissions, and open campus events, etc. and advertisement tools such as the College's brochure, website and PR magazines, etc.	(ア)	(ア-1) Proactively publicize the College's admission policy through PR activities such as high school visits by faculty, explanatory meetings for admissions, and open campus events, etc. (ア-2) In order to recruit excellent students, review the current PR activities and advertisement tools (e.g. College's brochure, website and PR magazines, etc.), and make improvements as necessary. (ア-3) Taking seriously the sharp drop of the number of applicants, analyze causes of this drop and take necessary measures.	(ア)	(ア-1) Proactively publicize the College's admission policy through PR activities such as high school visits by faculty, explanatory meetings for admissions, and open campus events, etc. (ア-2) In order to recruit excellent students, review the current PR activities and advertisement tools (e.g. College's brochure, website and PR magazines, etc.), and make improvements as necessary. (ア-3) The number of applicants from outside Fukushima is returning to normal. Yet, it is necessary to strengthen measures to increase applicants in number.
(イ)	Establish an Admissions and Publicity Center (tentative name) to promote work for publicity and admission in a comprehensive manner.	(イ)	The "Preparation Committee for Establishment of Admissions and Publicity Center" shall figure out issues to be worked on, while discussing the Center's business/operation system.	(イ)	The "Preparation Committee for Establishment of Admissions and Publicity Center" shall figure out clerical issues to be worked on, while discussing the Center's business/operation system.
(ウ)	Review the current selection methods for improvement.	(ウ)	(ウ-1) Conduct surveys such as freshmen survey for assessment of the current admission system and revise it as necessary. (ウ-2) Analyze the trends of past exam applicants and those admitted to UoA, and make improvements in selection methods whenever necessary.	(ウ)	(ウ-1) Through the freshmen survey and high school visits, discuss the current admission system and revise it as necessary. (ウ-2) Analyze the trends of past exam applicants and those admitted to UoA, and make improvements in selection methods whenever necessary. Further, review the recommendation-based admission capacity, based on situations of application for the special recommendation category and general recommendation category.

	1. Measures for Achievement of Goals regarding Education		1. Measures for Achievement of Goals regarding Education		1. Measures for Achievement of Goals regarding Education
	(2) Measures for achievement of goals regarding content and achievements of education		(2) Measures for achievement of goals regarding content and achievements of education		(2) Measures for achievement of goals regarding content and achievements of education
ア (ア)	ア The University of Aizu (ア) The Undergraduate Program	ア (ア)	ア The University of Aizu (ア) The Undergraduate Program	ア (ア)	ア The University of Aizu (ア) The Undergraduate Program
a	Improve the existing curriculums on a continuing basis, through so-called "PDCA cycle"* to promote leading-edge education and research and to keep up with advancement in computer science and engineering, development of computer-oriented society, and socio-environmental changes. *PDCA (plan-do-check-act) cycle: A method to smoothly manage production and quality of business activities.	a	Maintain smooth operation of the systematic curriculum consisting of three categories of 1) general education courses, 2) English language courses and 3) specialized courses, in order to enable students to select courses in a well-planned manner from their first year. Also, based on the latest trends in computer science and engineering, discuss improvement of the curriculum whenever necessary.	a	Organize Curriculum Sub-Committee meetings on a regular basis and discuss curriculum improvement whenever necessary, based on the latest trends in computer science and engineering.
b-1	Nurture human resources who have both solid skills centering around software and system design and basic knowledge in information and communications, and also have mastered fundamentals of computer science and engineering.	b-1	Educate students with practical knowledge and skills through smooth operation of the "Field and Track System" established based on social needs, and through specialized courses.	b-1	In order to meet social needs, discuss how to improve the Field (areas of specialization) and Track (typical registration models) System, which enables students to acquire practical knowledge and skills in a systematic manner.
b-2	Increase educational effectiveness while continuously improving class activities. For example, enhance TAs' and SAs' teaching skills, encourage students to take part in various contests for software education purposes, and make use of small class-based activities and seminar-based activities. *TA (Teaching Assistant): Master's students who serve as assistants in undergraduate education as a whole *SA (Student Assistants): Junior and senior undergraduate students who serve as assistants in fundamental courses of the Undergraduate School	b-2	Through timely and adequate support, improve teaching skills of TAs and SAs. Announce contest information to students and support them in taking part in various contests. Also, effectively organize small-size classes.	b-2	Through timely and adequate support, improve teaching skills of TAs and SAs. Announce contest information to students and support them in taking part in various contests. Also, effectively organize small-size classes.
b-3	Through student-centered learning, such as PBL*, cultivate students' abilities to draw up plans and get those plans done. *PBL (Project Based Learning): Problem-solving learning, which considerably differs from lecture-based learning.	b-3	Further improve the courses, "Basics of Business Ventures" and "Venture Start-up Factories," in order to cultivate students' abilities to draw up plans and get those plans done, rich imagination and entrepreneurial spirit. These efforts will lead to nurturing of students' ability to solve everyday issues from scientific viewpoints.	b-3	Further improve the courses, "Basics of Business Ventures" and "Venture Start-up Factories," in order to cultivate students' abilities to draw up plans and get those plans done, rich imagination and entrepreneurial spirit. These efforts will lead to nurturing of students' ability to solve everyday issues from scientific viewpoints.
c-1	Enable students to acquire competence in computer science and engineering, including logical thinking based on knowledge of mathematics and physics, and wide-ranging knowledge in humanities, social sciences, computer ethics and intellectual property. Also, maintain and improve students' health and physical strength through health and physical education courses, etc. Health and physical strength is an important basis of their campus life. These efforts shall result in nurturing of cheerful and well-rounded students capable of flexible thinking.	c-1	Help students to have a solid basis for logical thinking, while taking measures to help strengthen their knowledge of mathematics and physics taught in fundamental courses. Also encourage them to take general education and physical education courses in a well-planned manner, with assistance from curriculum advisors and class mentors.	c-1	Help students to have a solid basis for logical thinking, while taking measures to help strengthen their knowledge of mathematics and physics taught in fundamental courses. Also encourage them to take general education and physical education courses in a well-planned manner, with assistance from curriculum advisors and class mentors. Continue discussions on starting a small-group seminar as a new course for freshmen, in order for them to change their learning styles from passive learning in their high school days to independent and creative learning as university students.
c-2	In order to enable students acquire wide-ranging knowledge and high ethical standards required for researchers and engineers in computer science and engineering, improve related courses, such as "Introduction to Computer Science and Engineering" and "Information Ethics."	c-2	In the course, "Introduction to Computer Science and Engineering," make students aware how computer science and engineering is related to the real world and how far the relations are extended. Also help students acquire diversifying viewpoints through lectures by lecturers invited from various fields. In the course, "Information Ethics," nurture students' ability to solve problems of information ethics through education of both legal knowledge related to information and general knowledge indispensable for information centric society.	c-2	In the course, "Introduction to Computer Science and Engineering," make students aware how computer science and engineering is related to the real world and how far the relations are extended. Also help students acquire diversifying viewpoints through lectures by lecturers invited from various fields. In the course, "Information Ethics," nurture students' ability to solve problems of information ethics through education of both legal knowledge related to information and general knowledge indispensable for information centric society.

c-3	Utilize global cutting-edge teaching materials for advanced computer science and engineering education. In parallel with this, retain the English speaking and writing environment, where several advanced courses in computer science and engineering are given in English, and students are required to write their graduation thesis in English.	c-3	Maintain education of several advanced courses in English and a requirement to write graduation thesis in English.	c-3	Cultivates students' abilities to read English documents, write internationally viable research papers in English and orally present/defend their research results.	SAD 【AAS】
c-4	Provide highly professional English language education not only in English language courses, but also in computer science and engineering courses under the leadership of faculty members who are native/native-like speakers of English and also have doctoral degrees (PhD) in relevant computer science and engineering fields, so that students can acquire English language skills to be of practical use for research and development in the field of computer science, as well as in the international business scene. Also, encourage students to take an English language proficiency test, in order to have all students take such a test at least once before graduation.	c-4	Continue English language education by specialists. Encourage all freshmen and juniors to take TOEIC tests, and, based on analysis of students' scores, discuss effective class activities to improve students' English language abilities.	c-4	For freshmen and sophomores, aim at acquisition of English language skills needed for their studies at the University through the fundamental English courses. As for juniors and seniors, encourage them to use English in the field of computer science and engineering through English courses. Further, encourage all freshmen and juniors to take TOEIC tests.	SAD 【AAS】
d-1	Based on the top-down education approach, nurture individuals who have abilities to create proposals and carry them out, a creative sense, and an entrepreneurial spirit to survive in society. In parallel with this, foster students' competency to cope with not only specific issues but also everyday issues from scientific perspectives, by making use of their creative sense and innovative ideas. Such attitudes will help students to cope with changes they will face in the future.	d-1	Smoothly operate courses which stimulate students' learning incentives and initiatives, such as "SCCPs," "Venture Start-up Factories," and "Graduation Thesis Writing." Aiming at freshmen's proactive participation, increase and improve diversity of "SCCPs."	d-1	Smoothly operate courses which stimulate students' learning incentives and initiatives, such as "SCCPs," "Venture Start-up Factories," and "Graduation Thesis Writing." Aiming at freshmen's proactive participation, increase and improve diversity of "SCCPs."	SAD 【AAS】
d-2	In order to promote practical education in collaboration with industry, discuss our alumni's involvement in our educational activities.	d-2	Invite our alumni working as engineers or researchers at companies, etc. to lectures in various courses.	d-2	Invite our alumni working as engineers or researchers at companies, etc. to lectures in various courses.	SAD 【AAS】
d-3	Encourage students to take "Information Technology Engineers Examination (ITEE)" and increase the rate of the current University students who have taken ITEE to 50%. Also, aim to increase the rate of current University students who have passed "Fundamental Information Technology Engineer Examination (FE)" or higher level to 25%.	d-3	(a) Offer an intensive course for Information Technology Engineering Examination test taking both in the 1st and 2nd semesters, and award academic credits to students who complete the course. (b) Provide instructions on how to use and further utilize a self/e-learning system at the Office for Learning Support whenever necessary, and provide students with learning-on-demand environment. For promotion of students' acquisition of information technology engineering certificates, announce relevant exam information at orientations, etc. (c) In cooperation with the University of Aizu Support Association, subsidize upskilling programs.	d-3	(a) Offer an intensive course for Information Technology Engineering Examination test taking both in the 1st and 2nd semesters, and award academic credits to students who complete the course. (b) Provide instructions on how to use and further utilize a self/e-learning system at the Office for Learning Support whenever necessary, and provide students with learning-on-demand environment. For promotion of students' acquisition of information technology engineering certificates, announce relevant exam information at orientations, etc. (c) In cooperation with the University of Aizu Support Association, subsidize upskilling programs.	SAD 【AAS】 【SHWS】
e-1	Design curriculums in a systematic manner, taking into consideration continuity and coherency between the upper division education at the Undergraduate School and the graduate education.	e-1	Focusing on continuity between the Undergraduate education and the Graduate education, discuss development of a systematic educational program connecting the Undergraduate and Master's programs.	e-1	Organize Curriculum Sub-Committee meetings on a regular basis and discuss curriculum improvement to realize continuity between the Undergraduate and Graduate Programs, based on the latest trends in computer science and engineering.	SAD 【AAS】
e-2	Discuss development of a new curriculum which integrates undergraduate and graduate education.	e-2	Encourage undergraduate students to proactively apply for the Program of Undergraduate and Master's Programs for Five Years through Integration of Two Programs (Five-Year Program). Discuss opening Master's courses to undergraduate students as necessary.	e-2	Both the Undergraduate and Graduate School Academic Affairs Committees will discuss establishing a new systematic educational program, for example, an integrated six-year program, besides the Five-Year Program.	SAD 【AAS】
(イ)	The Graduate Programs	b	The Graduate Programs	b	The Graduate Programs	
a-1	Improve the existing curriculums on a continuing basis, through so-called "PDCA Cycle" to promote leading-edge education and research and to keep up with advancement in computer science and engineering, development of computer-oriented society, and socio-environmental changes.	a-1	Smoothly operate the curriculums, which have been revised focusing on continuity between "Fields" of Undergraduate Program and "Fields of Study" of the Graduate Program.	a-1	Discuss establishing a systematic educational program connecting the Undergraduate and Master's Program to realize continuity in content.	SAD 【AAS】
a-2	Under the initiative of the Center for Language Research, pursue research on English for specific purposes of information technology, and apply research achievements to English education at the Graduate School, by, for example, opening an English language course commonly for the Master's and Doctoral Programs.	a-2	Require Master's students to take TOEIC tests for confirmation of improvement in their English proficiency. Provide education which enables students to improve their fundamental knowledge in English, aiming at acquisition of higher scores in TOEIC.	a-2	Making use of the research outcome of English phrasing in science and technology, start a new English course for all graduate students to brush up language skills. Require Master's students to take TOEIC tests.	SAD 【AAS】
a-3	Nurture internationally viable human resources. For this purpose, use English as a common language at the Graduate School.	a-3	Give lectures in English, in principle.	a-3	Give lectures in English, in principle.	SAD 【AAS】

a-4	Nurture human resources whose Japanese language proficiency is good enough to work in Japan. For this purpose, improve Japanese language education for international students, by, for example, giving some Master's courses in Japanese.	a-4	Regarding some specialized courses, give lectures in Japanese.	a-4	Regarding some specialized courses, give lectures in Japanese.	SAD 【AAS】
a-5	Flexibly review and revise the existing curriculums through discussions on possible approaches, such as starting new courses to nurture human resources who have practical knowledge and skills on software, corresponding to social demands.	a-5	In order to educate specialists with practical skills in software development, operate the "Program for Leading-edge IT Specialists" in a smooth manner and discuss introduction of PBL, taking into consideration collaboration with the Undergraduate School.	a-5	Regarding the "Program for Leading-edge IT Specialists," discuss interconnection with the undergraduate education and whether to include this program as one of the regular courses or not.	SAD 【AAS】
a-6	Improve students' competency to make international level research presentations through "Presentation Seminars" and other activities. Presentation Seminars provide students with opportunities to brush up their presentation skills and also to understand expertise other than theirs by observing other students' presentations.	a-6	Develop students' abilities to make international level presentations through "Research Plan Seminar" and "Research Progress Report Seminar" of the Department of Computer and Information Systems, and "Tea Seminars/Contests" of the Department of Information Technology and Project Management.	a-6	Develop students' abilities to make international level presentations through "Research Plan Seminar" and "Research Progress Report Seminar" of the Department of Computer and Information Systems, and "Tea Seminars/Contests" of the Department of Information Technology and Project Management. In addition, establish a course "Research Paper Writing Seminar" to help students acquire skills for writing a quality paper to be submitted to/accepted by international conferences and major academic journals.	SAD 【AAS】
a-7	Let students experience high level research, useful for them to become independent researchers in the future. Also provide students with advanced training on research methodology.	a-7	Operate the RA system effectively from the perspective of nurturing researchers. Promote implementation of presentation meetings on research progress and "Creative Factory Seminar," in which Doctoral students are supervised by multiple faculty members, including those invited from outside.	a-7	Operate the RA system effectively from the perspective of nurturing researchers. Promote implementation of presentation meetings on research progress.	SAD 【AAS】
a-8	Encourage students to contribute research papers to domestic/international conferences as part of efforts to nurture independent researchers. Students will be able to benefit from such experiences, in that they will become highly motivated as researchers and pursue their expertise on their solid footing.	a-8	"Outside Presentation Seminar" and "Research Seminars/Conferences," in which credits are given to students who have made external presentations, shall be established. Encourage graduate students to contribute research papers and give presentations through the system to provide financial support for their travel expenses.	a-8	"Outside Presentation Seminar" and "Research Seminars/Conferences," in which credits are given to students who have made external presentations, shall be established. Encourage graduate students to contribute research papers and give presentations through the system to provide financial support for their travel expenses.	SAD 【AAS】
b-1	Nurture researchers and engineers who have multidisciplinary research interest, aiming at sharing research outcome with society.	b-1	Promote joint research and seminars involving multiple laboratories through implementation of "Creative Factory Seminars" for Master's students, aiming to nurture engineers and researchers who are active in multidisciplinary fields.	b-1	Aiming to nurture engineers and researchers who are active in multidisciplinary fields, promote "Creative Factory Seminars" for students to experience joint research and seminars involving multiple laboratories.	SAD 【AAS】
b-2	In order to prove worthy of trust from society to the University, ensure the educational quality.	b-2	In order to ensure the quality of Doctoral dissertations, continue updating the UoA major journal/conference list which serves as criteria for subscription of papers. Clarify screening process and requirements for dissertations, while maintaining strict screening standards.	b-2	In order to ensure the quality of Doctoral dissertations, continue updating the UoA major journal/conference list which serves as criteria for subscription of papers. Clarify screening process and requirements for dissertations, while maintaining strict screening standards.	SAD 【AAS】
イ	The Junior College	(イ)	The Junior College	(イ)	The Junior College	
(7)-1	Check and evaluate the curriculum on a continuing basis to make it suitable to contemporary and social needs, and more effective and efficient.	(7)-1	a. Review and evaluate curriculums of individual departments from the perspective of achievement of educational goals. In addition, collect and analyze information of social conditions regarding certificates/qualifications associated with College's majors, and examine how to grant certificates/qualifications to students. b. Discuss how to secure quality of students' academic achievements from the perspectives of educational goals and admission policies, according to changes in social needs.	(7)-1	a. Review and evaluate curriculums of individual departments from the perspective of achievement of educational goals. Further, collect and analyze information of social conditions regarding certificates/qualifications associated with College's majors, and investigate and discuss how to grant certificates/qualifications to students. b. Discuss how to secure quality of students' academic achievements from the perspectives of educational goals and admission policies, in order to meet ever-changing social needs.	JCD
(7)-2	In order to help students to have purposes for learning and future paths, and register for courses according to their purposes, develop systematic curriculums and show students typical models of course registration.	(7)-2	Give guidance on course registration upon admission and in each semester, by providing specific registration models created based on academic goals of respective fields, courses, and departments. Furthermore, check status of students' registration, and examine how well students understand and utilize these instructions.	(7)-2	Give guidance on course registration upon admission and in each semester, by providing specific registration models created based on academic goals of respective fields, courses, and departments. Furthermore, check status of students' registration, and examine how well students understand and utilize these instructions.	JCD
(7)-3	Inform students of purposes, content, goals and assessment standards of each course through syllabuses, so that students can use such information for their course planning.	(7)-3	a. Clearly state and open "content," "plan," "textbook," "book for reference," "academic assessment standard" and "attainment goals" of each course in the syllabus. b. Give guidance on course registration at the beginning of an academic year. Instructors must provide course information in the first class session.	(7)-3	a. Clearly state and open "content," "plan," "textbook," "book for reference," "academic assessment standard" and "attainment goals" of each course in the syllabus. b. Give guidance on course registration at the beginning of an academic year. Instructors must provide course information in the first class session.	JCD

(7)-4	Clearly show students assessment standards and attainment goals, and carry out fair and appropriate assessment.	(7)-4	Further clarify grade assessment standards and attainment goals, while discussing establishment of an appropriate assessment system utilizing GPA (Grade Point Average; assessment criteria widely used in the Europe and US), etc.	(7)-4	Further clarify grade assessment standards and attainment goals, while discussing establishment of an appropriate assessment system utilizing GPA (Grade Point Average; assessment criteria widely used in the Europe and US), etc. and put it into practice on a trial basis.	JCD
(7)-5	Aim at 100% success rate in acquisition of relevant licenses and certificates for those who apply for them.	(7)-5	Aim at 100 % success rate in acquisition of the following licenses and nurture quality professionals. Department of Food and Nutrition Sciences: Nutritionist, NR/supplement advisor, and food specialist Department of Social Welfare Sciences: Children's nurse and social worker	(7)-5	Aim at 100 % success rate in acquisition of the following licenses and nurture quality professionals. (1) Department of Food and Nutritional Sciences: Nutritionist, NR/supplement advisor, and food specialist (2) Department of Social Welfare Sciences: Children's nurse and social worker	JCD
(1)-1	Further improve general education courses, specialized courses and career education.	(1)-1	a. Foster students' intellectual ability and reason through fundamental courses, which impart wide knowledge and views, and specialized courses, which nurture students' deeper understanding. b. Nurture students' culture, morality, social awareness, career view through lectures, internship programs, career guidance, "Career Development" course, workshops, etc., and discuss an ideal model of career education at the Junior College Division. c. Utilize "Regional Project Workshops," "Graduation Research Seminars," "Graduation Research," and "Special Workshops" as opportunities for students to communicate with local citizens and foster their social awareness and sense of ethics.	(1)-1	a. Foster students' intellectual ability and reason through fundamental courses, which impart wide knowledge and views, and specialized courses, which nurture students' deeper understanding. b. Nurture students' culture, morality, social awareness, and career view through lectures, internship programs, career guidance, and workshops, etc., while promoting career education in "Career Development" course. c. Utilize "Regional Project Workshops," "Graduation Research Seminars," "Graduation Research," and "Special Workshops" as opportunities for students to communicate with local citizens and foster their social awareness and sense of ethics.	JCD
(1)-2	Promote practical and hands-on education through problem-finding/solving activities to achieve the educational goals, and ensure the quality of education.	(1)-2	a. Let students clarify the regional/social issues and propose their own solutions in "Graduation Research Seminars," "Graduation Research," "Special Workshops," "Regional Project Workshops," and "Special Workshops for Revitalization Support" etc. so that they can acquire not only knowledge and basic skills but also creativity, applied and practical skills. b. Give guidance on course registration upon admission and at beginning of a semester based on the educational goals. Faculty members, especially those appointed as Academic Affairs and Welfare Committee members, shall give advice to students for their course registration in a systematic manner. c. Discuss on how to secure quality of education at the College.	(1)-2	a. Let students clarify the regional/social issues and propose their own solutions in "Graduation Research Seminars," "Graduation Research," "Special Workshops," "Regional Project Workshops," and "Special Workshops for Revitalization Support" etc. so that they can acquire not only knowledge and basic skills but also creativity, applied and practical skills. b. Give guidance on course registration upon admission and at the beginning of each semester based on the educational goals. Faculty members, especially those appointed as Academic Affairs and Welfare Committee members, shall give advice to students for their course registration in a systematic manner. c. Regarding educational quality, discuss how to secure quality of students' academic achievements, taking into account our education/research goals and admission policy. Further, discuss introduction of a GPA system and put it into practice on a trial basis.	JCD
(1)-3	Aim at advancement of students' English language skills through introduction of an e-learning system which supports students' self-learning.	(1)-3	To improve students' English proficiency level, require all the College students to register for the e-learning system. Aim to increase the number of students who take qualification examinations for English skills. (Numerical target; 40 students) The e-learning system is made accessible for all University students.	(1)-3	To improve students' English proficiency level, require all the College students to register for the e-learning system. Aim to increase the number of students who take qualification examinations for English skills. (Numerical target; 50 students) The e-learning system is made accessible for all University students as well.	JCD
(7)-1	Taking advantage of the College's characteristics, carry out small-group instruction to give students attentive care with an emphasis on communication between faculty and individual students.	(7)-1	In "Graduation Research Seminars," "Graduation Research," "Special Workshops" and "Practical Training/Workshops," carry out small-group instruction which emphasizes on mutual communication.	(7)-1	In "Graduation Research Seminars," "Graduation Research," "Special Workshops" and "Practical Training/Workshops," carry out small-group instruction which emphasizes on mutual communication.	JCD
(7)-2	Develop diverse teaching methods, taking into account effective use of audio-visual materials, computers and network machines, etc.	(7)-2	a. Encourage faculty members to improve their teaching methods by utilizing results of course evaluation by students, FD activities, etc. b. Use various media in class as audio-visual materials, and improve teaching methods utilizing network equipment. c. Encourage students to utilize College's internal web portal site "Pota." for improvement of their media literacy.	(7)-2	a. In all courses, conduct course evaluation by students in order for faculty to examine how to improve teaching methods based on evaluation results. Continue efforts to improve teaching methods through FD activities. b. Use various audio-visual materials, such as a classroom response system named "Clicker" installed in AY 2013, and utilize network equipment in class. c. Encourage students to utilize College's internal web portal site "Pota." for improvement of their media literacy.	JCD

(7)-3	In order to help students develop their communication skills, provide students with various learning opportunities, such as internship programs, student-participatory and hands-on education.	(7)-3 a. Help students nurture career and work view through internship programs, while letting them think about significance of participation and working in society. Find more companies which accept College's students to their internship programs. b. Help students nurture communication skills through practical, student-participatory learning/education (surveys, opinion exchange sessions, achievement presentations, etc. at outside organizations concerned/in the target regions) in "Graduation Research Seminars," "Exercise Classes," "Regional Project Workshops," and "Special Workshops for Revitalization Support."	(7)-3 a. Help students nurture career and work view through internship programs, while letting them think about significance of participation and working in society. Find more companies which accept College's students to their internship programs. b. Help students nurture communication skills through practical, student-participatory learning/education (surveys, opinion exchange sessions, achievement presentations, etc. at outside organizations concerned/in the target regions) in "Graduation Research Seminars," "Exercise Classes," "Regional Project Workshops," and "Special Workshops for Revitalization Support." ア (ア)	ア Specific measures for improvement of support systems for learning, life-styles, and extracurricular activities based on students' various needs (ア) The University of Aizu	ア (ア)	ア Specific measures for improvement of support systems for learning, life-styles, and extracurricular activities based on students' various needs (ア) The University of Aizu	ア (ア)	ア Specific measures for improvement of support systems for learning, life-styles, and extracurricular activities based on students' various needs (ア) The University of Aizu
a-1	The undergraduate education should support not only students' learning, but also their personality and ability development. For this purpose, make use of the "class mentor system" and "office-hour system" to detect students experiencing severe difficulty with poor academic performance. In addition to these systems, another learning support scheme, "student advisor system," shall be started.	a-1	Maintain the "class mentor system" for freshmen and sophomores. Also maintain the "curriculum advisor system" and "office-hour system."	a-1	Discussions are going on regarding establishment of a new seminar course for freshmen education. Continue those discussions including design of the course to have a function as a "class" and have seminar teachers concurrently serving as class mentors. Maintain the "curriculum advisor system" and "office-hour system."
a-2	Also, provide students with learning support and advice on course planning, making use of the Office for Learning Support. The Office for Learning Support is open on a steady basis and has learning support staff and teaching assistants (TAs). Functions of the Office for Learning Support shall be further improved.	a-2	(a) Open the "Office for Learning Support" from the 1st class period to one hour after the last class period. Assign staff and TAs/SAs (student advisors) to the Office to provide learning support such as supplementary classes for term-end examinations. (b) In order to provide more effective support, request students who visited the Office to answer the questionnaire about the Office.	a-2	(a) Open the "Office for Learning Support" from the 1st class period to one hour after the last class period. Assign staff and TAs/SAs (student advisors) to the Office to provide learning support such as supplementary classes for term-end examinations. (b) Based on written and oral questionnaire results, discuss how to provide further learning support.
b	With regard to lifestyle and health counseling, a counselor (Student Consultation Room), a nurse (Medical Treatment Room), Grievance Counselors (Grievance Counseling Office, Grievance Processing Committee), Counselor for Sexual Harassment (Committee for Prevention of Sexual harassment) and staff members of the Student Affairs Division shall cooperatively work for students. Discuss establishment of a more efficient counseling system.	b	In order to provide students with effective health and welfare support, hold meetings of the student support working group consisting of the Student Counselor, a nurse, Grievance Counselors, faculty and Student Affairs Division staff to discuss improvement of services, whenever necessary. Also discuss an effective counseling system.	b	In order to provide students with effective health and welfare support, hold meetings of the student support working group consisting of the Student Counselor, a nurse, Grievance Counselors, faculty and Student Affairs Division staff to discuss improvement of services, whenever necessary. Also discuss an effective counseling system.
c	Basically, counseling shall be done on a student-counselor basis. However, in order to detect and care students experiencing difficulties in their lifestyles at an early juncture, adequate information shall be forwarded to their guardians at an adequate juncture, so that guardians can also grasp situations through consultation, etc.	c	(c-1) Depending on grades of each semester, meet with relevant students to talk about their difficulties. If necessary, the Student Affairs Division, the Student Counselor, the Office for Learning Support and students' guardians will work together to solve problems. (c-2) Hold meetings to exchange opinions with students and guardians, taking the opportunity of the University Festival, and share information.	c	(c-1) Depending on grades of each semester, meet with relevant students to talk about their difficulties. If necessary, the Student Affairs Division, the Student Counselor, the Office for Learning Support and students' guardians will work together to solve problems. (c-2) Cooperating with the UoA Support Association and Alumni Association, hold meetings to exchange opinions with students and guardians, taking the opportunity of the University Festival, and share information.
d	Make efforts to reduce students' financial strain.	d	(d-1) Maintain the tuition exemption measures for students, including those who are victims of disasters. (d-2) Implement the RA System. (d-3) Utilize scholarships for Dual Degree Program, International IT Nisshinkan and the Five-Year Program.	d	(d-1) Maintain the tuition exemption measures for students, including those who are victims of disasters. (d-2) Implement the RA System. (d-3) Utilize scholarships for Dual Degree Program, International IT Nisshinkan and the Five-Year Program.

	(1) Measures for achievement of goals regarding promotion of international exchange		(1) Measures for achievement of goals regarding promotion of international exchange		(1) Measures for achievement of goals regarding promotion of international exchange	
ア	Promote activities related to international exchange on the initiative of the Center for Strategy of International Programs, and take follow-up measures to further promote international research collaboration and student exchange, etc. in an efficient and organized manner, through continuous improvement of the University's international exchange structure.	ア	(ア-1) Conduct international exchange activities on the initiative of the Center for Strategy of International Programs, taking into account suggestions from the Advisory Board. (ア-2) Make on-campus announcements of activities by the Center for Strategy of International Programs on a constant basis, in order to share information with faculty and staff members. Furthermore, proactively publicize University's international exchange activities through the University website and mass media, in an effort to make use of the achievements for the benefit of local communities. (ア-3) Follow up international collaborative research activities, etc.	ア	(ア-1) Conduct international exchange activities on the initiative of the Center for Strategy of International Programs, taking into account suggestions from the Advisory Board. (ア-2) Make on-campus announcements of activities by the Center for Strategy of International Programs on a constant basis, in order to share information with faculty and staff members. Furthermore, proactively publicize University's international exchange activities through information disclosure on the University website and information provision to mass media, in an effort to make use of the achievements for the benefit of local communities. (ア-3) Streamline the system to accept/send researchers for international joint research projects. (ア-4) Encourage faculty and staff in charge of international affairs to attend workshops organized by international exchange promoters for upskilling of their work performance. (ア-5) In collaboration with Academic Consortium Fukushima (ACF) and other related organizations, promote fostering of international-minded students.	PS
イ	Promote exchange with universities in many different countries including partner universities, etc. When extending or concluding an exchange agreement, closely review details of the agreement from strategic perspectives. By doing this, substantive exchange of faculty members and students, and collaborative research, etc. shall be further promoted.	イ	(イ-1) Select special partner institutes from among those with which the University concluded an exchange agreement, in order to promote partnerships with them in concrete terms. (イ-2) Discuss with partner universities about development of an environment in which students can interact with each other. Also implement short-term study abroad programs and training program for students. (イ-3) Apply for open-application programs for promotion of international exchange activities.	イ	(イ-1) From among current partner universities with whom UoA has concluded an agreement, designate special partner universities, and promote concrete exchange activities in education and research fields. (イ-2) Discuss with partner universities about development of an environment in which students can interact with each other. Also implement short-term study abroad programs and training program for students. (イ-3) Apply for open-application programs for promotion of international exchange activities.	PS
ウ	Accept international students in a proactive manner and promote interactions between international students and local communities for cross-cultural understanding, so that they can transmit information regarding current conditions and attraction of Fukushima Prefecture to inside and outside Japan.	ウ	Proactively accept international students and encourage them to understand the current situation and attractions of the prefecture through various local events and interaction with local people.	ウ	Proactively accept international students and encourage them to understand the current situation and attractions of the prefecture through various local events and interaction with local people.	PS
エ	Provide assistance in planning and holding of international academic conferences, as part of the University's activities in supporting international research collaboration.	エ	Assist planning and operation of international conferences and workshops.	エ	Assist planning and operation of international conferences and workshops.	PS
オ	Improve the quality of performance of duties related to international activities within the University through education and training of employees who have such duties, including training seminars for translators at the University to improve their skills, and practical education to foreign personnel advisors.	オ	Give training with practical content to the personnel engaging in international duties, such as in-house translators, for improvement of quality of their performance.	オ	Give training with practical content to the personnel engaging in international duties, such as in-house translators, for improvement of quality of their performance.	MS
カ	Promote international exchange in cooperation with the University, while discussing a detailed plan for exchange activities and putting the plan into practice in the order of activities having higher feasibility. (The Junior College)	カ	Promote international exchange in cooperation with the University, while discussing detailed plans for exchange activities and future possibilities at the International Exchange Committee meetings. (JCD)	カ	Promote international exchange in cooperation with the University, while discussing possible approaches for exchange activities at the International Exchange Committee meetings, and put them into practice on a trial basis. ア	Nurture IT human resources, while making efforts to accumulate IT engineers to the region, in order to vitalize industry through creation of innovations.	ア		ア	
	(ア) Continue and further promote the existing training programs organized by "Aizu SLF (Software Linkage Firm) Conference."	(ア)	Continue the existing "Basic Course" and "Expert Course" for fostering IT professionals, organized by "Aizu SLF (Software Linkage Firm) Conference."	(ア)	Foster IT professionals having computer knowledge, practical skills and work readiness through hands-on training in the existing "IT Professional Program" hosted by "Aizu SLF (Software Linkage Firm) Conference".
	(イ) In cooperation with private companies, organize more courses for management of technology (MOT) and smart phone applications.	(イ)	Work on nurturing of IT human resources through the "Industry-University Collaborative Innovation Promotion Program."	(イ)	As part of the "Industry-University Collaborative Innovation Promotion Program," start "IT Entrepreneur Program" jointly with university-led venture business companies.
イ	Through practical and hands-on education, nurture human resources who can assume a leading role in coping with reconstruction from the Great East Japan Earthquake. (The Junior College)	イ	(イ-1) Provide practical education through the courses, "Special Workshops for Revitalization Support," "Regional Project Workshops," "Graduation Research Seminars," etc., and nurture human resources who can solve issues associated with revitalization. (イ-2) Offer public lectures and off-campus lectures in Akabeko Program and/or as activities by the Center for Rejuvenation of Local Communities, in an effort to nurture human resources who can solve issues associated with revitalization. (イ-3) Based on the educational collaboration agreement concluded with the Okuma Town Educational Board, send lecturers to Okuma Town elementary/junior high schools, and open the College's facilities such as the gym and athletic field, etc. to them, in order to support nurturing of future leaders of Okuma Town.	イ	(イ-1) Provide practical education through the courses, "Special Workshops for Revitalization Support," "Regional Project Workshops," "Graduation Research Seminars," etc., and nurture human resources who can solve issues associated with revitalization. (イ-2) Through collaboration with the UoA Revitalization Center and off-campus/on-campus lectures organized by the Center for Rejuvenation of Local Communities, nurture human resources who can solve issues associated with revitalization. (イ-3) Based on the educational collaboration agreement concluded with the Okuma Town Educational Board, send lecturers to Okuma Town elementary/junior high schools, and open the College's facilities such as the gym and athletic field, etc. to them, in order to support nurturing of future leaders of Okuma Town.
ウ	Provide support to the reconstruction through the University's think tank function and expertise.	ウ		ウ	
	(ア) Continue "Akabeko Program," and give advice and instructions regarding the reconstruction.	(ア)	Continue "Akabeko Program." In cooperation with the Junior College Division, make efforts to meet requests and needs from the Okuma Town Educational Board, with which UoA has concluded an agreement.	(ア)	Continue "Akabeko Program."
