

「科学研究論文に見られるよくある誤り」

Common Errors in Scientific Research Articles

William Holden
John Blake

先端領域基礎教育院

Institute of General Education

2014 **12/15(月)** 12:40 - 13:20

会場:ラーニング・コモンズ「J-BEANS」

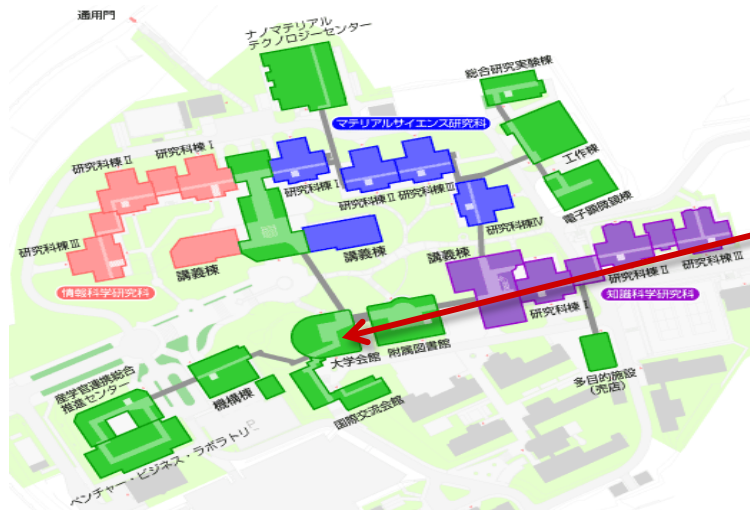

This presentation will open with a short overview of factors that can positively influence a journal reviewer's evaluation of a manuscript and increase an author's chance that his or her manuscript will be accepted for publication.

The main section of the presentation will highlight a number of errors frequently found in scientific journal articles produced by non-native English speakers. Errors in the following areas will be examined:

- | | |
|-------------|---|
| Accuracy | - the correctness of factual information |
| Brevity | - avoiding verbosity |
| Clarity | - reducing vagueness and eliminating ambiguity |
| Objectivity | - reducing subjectivity |
| Formality | - adopting a suitably formal and academic style |

The presentation will conclude with an overview of the scientific writing classes to be offered from April 2015, and a few comments about how students can make more effective use of the Writing Lab.

The slides are written in English. Foreign audiences are welcome!

ラーニング・コモンズJ-BEANSは、大学会館1階です。
J-BEANS is located on the 1F, Institute Hall.

J-BEANSセミナーは、JAISTで行われている研究の知識共有を目指しています。専門家以外も楽しめるセミナーを行いますので、ぜひ講師以外の研究科の方もご来聴下さい。

担当教員 : 大学院教育イニシアティブセンター 准教授 長谷川忍
